Essential protection for peace of mind

With over 100 years of combined experience in the automotive world, our team at Love Warranty knows cars and bikes inside out, from sporty hatchbacks to elite hypercars. There's not much we haven't seen when it comes to vehicle reliability and repairs.

Our Love Listed Cover is designed to provide an essential warranty product to protect you from most major vehicle failures. We've developed an efficient guarantee that covers more items, more events, and more services than any other warranty we've encountered. Plus, we've eliminated unreliable claim limits entirely.

Essential protection for peace of mind—covering key components to keep you on the road, without the extras you don't need.

Do I need extended warranty?

With years of experience in the warranty industry, we've learned a lot. Here are some insights we'd like to share with you:

- The average car has 30000 independent parts.
- The RAC responds to 2.5 million breakdowns per year, 35% of cars fail their MOT, and 30% of used car buyers report mechanical issues in their first year of ownership.
- Our data shows that the average cost per claim is £1240.
- The average price of our warranties, with industry leading coverage, is £952.
- Costs of parts and labour are increasing year on year due to a wide variety of global issues.
- Extended warranty exists to manage those risks, and give you complete peace of mind.

When it's your car that has an issue, we're going to sort it for you!
